

Camberwell Grove Bridge

Have your say

Camberwell Grove bridge, near the junction with McNeil Road, has been closed to motor traffic since October 2016, due to structural failure. Repairs to the bridge will soon be completed by Network Rail, which will allow it to be reopened for motor vehicles under 3T on alternate one-way working.

Camberwell Grove Bridge

Have your say

Since the bridge has been closed, the council has heard from some residents who favour retaining the closure on a permanent basis, as well as some residents who wish to see it reopened as soon as possible, principally due to the impact of additional traffic on other residential roads in the area.

In the spirit of democracy, the council wants to hear your views before taking a final decision on reopening the bridge.

Please answer our online consultation by 30 October:
