D’Eynsford Road, Camberwell

Project aim...

As part of Southwark Council’s on-going commitments to revitalise Camberwell, Phil Jones Associates have been commissioned to prepare concept designs looking into public realm improvements, which subject to funding will complement.

The aim of this project to revive this piece of underutilised carriageway to facilitate a new public realm that will help people reconnect with the area.

Option 1

- De-clutter and tidy up existing street furniture
- Narrow existing road widths
- Introduce new ‘table junction’ crossings
- New tree planting
- Rationalise and improve car parking provision

Option 2

- Remove western carriageway
- Make eastern carriageway two-way
- Introduce new ‘table junction’ crossings
- New tree planting
- Rationalise and improve car parking provision

Option 3

- Remove central median strip
- Introduce new ‘shared surface’ carriageway
- New tree planting
- Rationalise and improve car parking provision

Key project aims:

Overall appearance

- Renew the look and feel of D’Eynsford Road

Decluttering

- Improving the quality and layout of the space
- Decluttering of the street
- Rationalising street furniture

Public space, greening and planting

- Spaces to be enhanced
- New planting and trees

Cars and vehicles

- Reducing the dominance of traffic
- Options to improve and rationalise car parking

Pedestrian space and movement

- Promote walking & cycling
- Improved design of the pedestrian environment
- Widened pavements
- Improvements to pedestrian crossings

Road safety

- Improving road safety and access for all
