SECTION C – The proposals and your views

4. Do you want a parking zone to be introduced in your street?

This is the key question that helps decide whether or not parking controls are introduced

☐ Yes

☐ No

☐ Undecided

5. If you answered “No” or “Undecided” to question 4, would you change your mind if a parking zone was to be proposed in only part of the study area? (i.e. if a neighbouring road was in favour, would you then want parking controls to be introduced in your street?)

Parking controls can cause displacement. A parking zone in a street next to yours is likely to increase demand for a space in your street.

- ☐ Parking controls do not guarantee me a parking space outside my property
- ☐ Too much additional street clutter (road markings and signs)
