Harper Road
Healthy Streets
Summary
Harper Road Healthy Streets Survey (Summer 2018)

We conducted a Healthy Streets Perception Survey of residents in the Harper Road area in July and August 2018.

This included an online survey available from 11 July to 3 August, and street surveys conducted on the afternoon of Friday 20 July.

The purpose of this survey was to gain a snapshot of perceptions of how the street works for local people, to help inform future street improvement works, as well as a snapshot of the impact of the ongoing trial width restrictions on Harper Road and Bath Terrace. The results are summarised on the following pages.
Overall Healthy Streets Scores

These are a series of questions about different aspects of the street, scored from 0 to 10, with 10 always being the highest level of satisfaction.
Healthy Streets scores split by type of respondent

- Overall how satisfied were you with the street (was it a good place to be?)
- How attractive did you find the street?
- How clean did you think the air on the street was?
- How noisy did you find the street?
- How enjoyable did you find being on the street?
- How easy do you think it would be to cross the street?
- How easy would it be for you to find somewhere to stop, sit or rest if you needed to?
- How easy would it be for you to find shelter, for example if it was very sunny or raining?
- How safe from crime or anti-social behaviour did you feel on the street?
- How intimidated did you feel by the traffic on the street?
- How clean and free from litter, dog mess and other rubbish did you find the street?
- How would you rate the trees, plants and green spaces on the street?
- How would you rate the quality of the pavements on the street, thinking about the pavement width, pavement surface and obstructions?

Legend:
- Blue: Live there/nearby
- Red: Work there
- Green: Commute/passthrough
- Purple: All
As a pedestrian on Harper Road, would you feel the level of motor vehicle traffic is about right, too much or too little?
