Southwark
Council
southwark.gov.uk

What is a parking study?

A parking study is an opportunity for the council to assess the parking stress in a certain area by asking the local residents and businesses how they view parking on their street.

An overview document has been sent out to all postal addresses in the area asking whether you think a parking zone should be implemented on your street. We would also like to know which days and during what times of the day you would like the restrictions to operate.

It is important to respond to this consultation whether you own a vehicle or not. The council will analyse the responses on a road by road basis and present a report to the community council and the decision maker with a recommendation based on your response.

To see what parking restrictions could be on your street, we have prepared a design for your comment. The design can be found on the consultation hub.

What is a parking zone?

A parking zone is a network of streets covered by parking controls. Each street is marked out with either parking bays or double yellow lines.

Permit holders only - bays solely for the use of resident /business permit holders.

Shared use parking bays – bays which can be used on a pay by phone basis and by resident/business permit holders.

Disabled bays – bays to be used only by those in possession of a Blue Badge.

Double yellow lines – waiting restrictions which allow for active loading for up to 40 minutes and indicate where parking is deemed unsafe or obstructive.

Why are we conducting a parking study now?

The council has received a number of requests for parking controls to be introduced in your area. Local residents are finding it harder and harder to park near their homes; this can cause a lot of stress and inconvenience.

For the safety and convenience of local residents and businesses, the council would like to know whether you think parking could be improved in your area.

What are the advantages of having a parking zone on my street?

- ▶ Space is prioritised for local residents, businesses and their visitors.
.....
- ▶ Commuters will no longer be able to park on your street during the operating hours.
.....
- ▶ Improved access for emergency services and refuse vehicles.
.....
- ▶ 'Permit free' planning conditions can be placed on future developments so that parking stress is not increased by the construction of new residential properties.
.....
- ▶ Reduces the amount of cars parked on your street and improves air quality.
.....

What are the disadvantages of having a parking zone on my street?

- ▶ Those entitled to a permit must pay to park in the zone. This payment contributes to the enforcement of parking controls and any surplus must legally be spent on improving the public highway.
.....
- ▶ Parking can be displaced into nearby uncontrolled roads.
.....
- ▶ Parking zones are most effective at reducing commuter parking.
.....
- ▶ Street clutter (signs and lines).
.....

When would the parking zone operate?

It is up to you. The questionnaire asks what time you think the controls should operate. Officers will usually recommend the operating times that the majority of respondents ask for.

What is the difference between an all day and a part day zone?

All day parking zone

(e.g. 8.30am to 6.30pm)

Usually successful in areas that have a high demand for parking throughout the day with pressure not just from commuters but from local attractions such as parks and leisure centres.

These zones give a high degree of priority for local residents, businesses and their visitors; reducing the negative effects of commuter parking.

Longer operating hours would mean that residents would need to have visitor permits for longer periods during the day.

Part day parking zone

(e.g. 12 noon to 2pm)

Usually successful in areas that have a sudden surge in demand for parking once a day, such as streets close to a commuter rail station.

Most of the day parking is free and unrestricted which can offer greater flexibility to those eligible for a permit and their visitors.

Part day controls are likely to result in higher pressure on parking particularly if the demand isn't just from commuters.

There is no difference in price for residents' permits between a part day and all day zone. For a part day zone, you would however need to buy fewer visitor permits which could save you money.

Who can purchase a permit?

Residents

- ▶ If you live within the parking zone and your vehicle is registered to that address, you will be able to buy a resident parking permit.
- ▶ Those living on estates have their own parking restrictions which would not change but you can still purchase a permit for on-street parking and have your say in this consultation.
- ▶ There is a maximum of three permits per household.
- ▶ Blue Badge holders get a 75% discount if they need to buy a residents' permit and a 50% discount on visitors' permits.
- ▶ Motorbikes and mopeds get a 75% discount on the price of a residents' parking permit.
- ▶ Owners of hybrid or electric vehicles get a 75% discount on the price of a residents' parking permit.

Prices →

1 month	3 months	6 months	12 months	Discounted 12 month permit
£15.74	£36.58	£67.83	£125	£31.25

The cost of an annual permit works out at 48p per day for the operation of a weekday parking zone

Businesses

- ▶ Businesses operating from an address within Southwark's parking zones may buy permits for vehicles that are essential to their business. They are not available if the vehicle is just used for commuting purposes.

Prices →

3 months	6 months	12 months
£176	£352	£577.50

On-street pay parking

- ▶ £2.70/hour (pay by phone)

Visitors

Residents can buy visitor permits for use by their family, friends or tradespersons. You can buy permits even if you do not have a car yourself.

One hour permits	
• Groups of 10 (1 hour) permits	£10.30
• Individual 1 hour permit	£1.55
Five hour permits	
• Groups of 10 (5 hour) permits	£20.60
• Individual 5 hour permit	£2.58
All day permits	
• Individual all day permit	£5.15
• 10 all day permits (purchased within any 12 month period)	£25.75
• Additional permits (max 100 per resident), purchased within one year of buying your first 10 after 12 months, you'll qualify for the discounted price	£46.35

← Prices

50% discount for Blue Badge holders

Home care workers

Home care workers from approved home care organisations can park while visiting their clients if they hold a permit.

The permits are issued to the organisation and it is up to the organisation to ensure the permit is available to its home care workers. The permits can be transferred between staff members and each organisation can hold up to five permits.

Each permit costs £125 for 12 months.

Professional health workers' permits

Medical and health professionals can use these permits when making home visits to patients.

This permit cannot be used by medical professionals as a convenient method of parking near their place of work. Each permit costs £125 for 12 months.

Permit costs correct at time of publication

Myth busting

Southwark Council is just trying to make money

No. Parking zones are introduced as a tool to manage the finite supply of parking space on our road network.

We must charge for parking permits to cover the operational costs of the zone. By law, any surplus on the parking account must be invested back into transport related improvements such as highway improvements and school crossing patrols.

This could be paid for with council tax

- ▶ Council tax and vehicle excise duty help pay for services that are available to the entire population such as education, social services and road maintenance.
- ▶ Parking zones only affect a local area and are expensive to set up and run.

The council have already made up their mind; my response won't make a difference

The council will analyse all responses on a road by road basis and make a recommendation to the decision maker accordingly.

The council must present all findings in an honest and transparent way. Any parking controls that we introduce will take into account the results of the consultation as well as existing highway safety issues in the proposed zone, feedback from emergency services, and our wider transport policies reflecting our responsibilities to air quality and active travel.

Please note that the boundary of this proposed zone is not fixed, it is possible that no zone or a smaller zone could be created depending on resident feedback through consultation, and physical constraints.

Visitors and Tradespersons will no longer visit my home

You will be able to book visitor permits online, by text and if you prefer, paper vouchers are available.

To arrange a translation of this leaflet please take it to:

376 Walworth Road, SE16 2NG or Ground Floor, 122 Peckham Hill Street, SE15 5JR
