

Southwark Park car park - Jamaica Gate entrance

This map illustrates the proposed layout for the Southwark Park car park, specifically the Jamaica Gate entrance. The car park area is highlighted in yellow, with blue lines indicating the proposed layout. Three specific areas are marked with red rectangles and labeled "Proposed disabled bays". An "Emergency access gate" is also indicated. The map includes a north arrow and various landmarks such as the Pond, Play Area, and Rising Bollard. Dimensions of 1.5m and 2.0m are shown for specific areas.

The map shows the layout of Southwark Park and its surrounding roads. The Hawkstone Road entrance is highlighted with a blue box, and the Jamaica Gate entrance is highlighted with a red box. The map also shows the location of the District Housing Office and the Lady Gomm House.

2. Parking signage will be required. Our starting position for the design of off-street parking will be a minimal signing approach but, clearly there will be need to convey restrictions to road users.
