Elephant & Castle to Crystal Palace Quietway (QW7) Falmouth Road to Albany Road

Public Consultation

September 2015

www.southwark.gov.uk

How would the proposals benefit all road users?

1. Encourage speed reduction with more effective traffic calming features

2. One-way working northbound on Rodney Place, between New Kent Road and Munton Place (cyclists exempted)

3. Discourage rat-running to / from New Kent Road by banning right turn from Rodney Road into Rodney Place

4. Two-way segregated cycle lane via Rodney Place and Rodney Road into Content Street (until Heygate regeneration is completed)

5. Improve safety at junctions along Brandon Street and Portland Street by extending double yellow lines. Significant number of accidents occur at or near road junctions due to poor forward visibility caused by parked cars.

6. Remove footway parking to improve access for pedestrians:

Brandon Street, near junction with East Street (3 parking spaces)

Portland Street , south of East Street (9 parking spaces)

7. Accentuate pedestrian priority and improve the public realm at East Street market, junctions with Portland Street and Brandon Street :

Introduce give way markings on Brandon Street and Portland Street

Introduce visual surfacing to encourage motorists to slow down

8. Portland Street :

Improve pedestrian crossing at side roads with drop kerbs e.g. Sondes Street and Merrow Street

9. Portland Street / Albany Road junction :

Wider footway

Direct / shorter pedestrian crossings

Segregated cycle lane from Portland Street into Burgess Park, across Albany Road

New segregated cycle lane across the above junction

Improve cycle safety with a signal phase for cyclists at the junction

Moderate increase in the signal cycle time to accommodate improvements

Parking lost on both Portland Street and Albany Road to accommodate dedicated cycle facilities
