5. If you answered "No" or "Undecided" to question 4, would you change your mind if a parking zone was to be proposed in only part of the study area? (i.e. if a neighbouring road was in favour, would you then want parking controls to be introduced in your street?)

- Yes       No       Undecided

Parking controls can cause displacement. A parking zone in a street next to yours is likely to increase demand for a space in your street.

6. If you answered "No" or "Undecided" to question 4 of this section, please can you tell us why?

Please tick all options that apply to you.

- There is not a parking problem
- The cost of parking permits
- Parking controls do not guarantee me a parking space outside my property
- Too much additional street clutter (road markings and signs)
- There is a parking problem, but a parking zone will not fix it
- Other (please specify) \_\_\_\_\_

7. If a parking zone was introduced, which of the following hours would you like the parking zone to operate?

- All day (for example 8.30 am to 6.30pm)       Part day (for example 10 am to 2pm)  
 Two hours during the day (e.g 11 am to 1 pm)       Other (please specify) \_\_\_\_\_

8. If a parking zone was introduced, which of the following days would you like the parking zone to operate?

- Monday to Friday       Monday to Saturday       Other (please specify) \_\_\_\_\_

### SECTION D — Your comments

9. Do you have any comments about the proposal or the consultation?

Please use this section to make any comments on the consultation process and/or suggestions for how we can improve the parking layout (position and type of parking bay) in the feasibility design.
